

PROGRAM MANAGEMENT SYSTEM AND METHOD

ABSTRACT OF THE INVENTION

5 A method for program management is presented. A  
governance structure is determined for a program. The  
governance structure provides leadership for the program  
and includes at least one member. At least one member of  
the governance structure applies at least one program  
management discipline to the program. At least one  
10 member of the governance structure applies knowledge  
management to the program. At least one member of the  
governance structure applies at least one project  
management methodology to at least one project associated  
with the program.
